

How to invoice Akind Group

There are two ways to send invoices to us, E-invoices (EDI/Peppol/GLN) or PDF invoices through email. We prefer receiving E-invoices for faster handling times. Paper invoices are not accepted anymore, which helps us reduce paper consumption as part of our environmental contribution.

Kindly note that every company has its own invoicing information, ensure that you use the correct data when sending invoices. Invoices sent to the incorrect address will not be handled.

The invoice or invoices need to include a complete company name of the invoiced company and a reference person.

Find below the complete list of companies with the respective information.

Please do not hesitate to contact us for support at supplierinvoices@akindgroup.com

Best regards
